### Work:

Sam: Developed most groundwork of the unreal project, proofread and edited paper, collected sources.

Scott: Wrote and edited paper, collected sources.

Aaron: Wrote and edited paper, collected sources.

Phillip: Wrote and edited paper, collected sources.

In the future all work will be evenly distributed as familiarity with Unreal and Overleaf grows.

### Meetings:

We have had 2 formal in-person meetings to talk about large portions of the project. After most classes, we give recaps on what we will be working on next. We communicate via discord almost daily so that everyone is on the same page and ideas or thoughts can be shared immediately.
